Data for Everyone – Learn how to incorporate data analysis standards into any curriculum area with infographics. Everyone loves to look at infographics for both their visual appeal and their useful data. Not only can you find the best infographics with a web search but you can also use simple web 2.0 software for you and your students to create original infographics to meet content standards. It's quick easy and free.

You can get started creating your own infographics at <http://piktochart.com>

Once at the site, choose “Pricing” and “Education” from the menu.

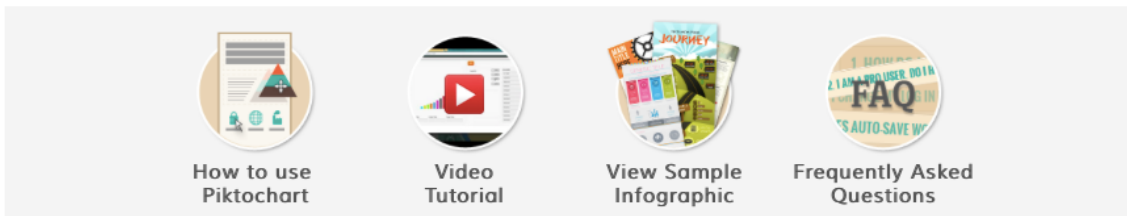

Choose the free option and then fill out the form to sign up.

Once logged in, you can view the tutorials and samples or choose a template to get started.

Welcome To Piktochart

Dueling Apps – Two experienced iPad users match up their favorite apps for learning in a head to head match. The audience decides the winner of this battle for the best education apps for a variety of subject areas, grade levels, and technology standards. Visit my co-presenter, Sara Stewart's, blog at edtechmuse.com.

Here is the list of iPad Apps that Carole and Sara used during their duel for the best apps to address the Nevada State Technology Standards. You can click the link see the details in the iTunes App Store.

	Carole	Sara
